

High Performance Cable Assemblies

40 GHz and 50 GHz Cable Assemblies

GigaLane **40 GHz and 50 GHz Cable Assemblies** have Low VSWR using Semi-Rigid & Flexible cables up to 40 GHz and 50 GHz. They are very useful for commercial and Military RF and Microwave communications systems, Test measurement systems.

Features

- DC to 40 GHz (using 2.92 mm connectors)
- DC to 50 GHz (using 2.4 mm connectors)
- Low VSWR (1.2 :1)
- Cable Type : Semi-Rigid (.085), Semi-Flexible(.085), MF085

Test Result

- Connector : 2.92 mm(Male Type)
- Cable Type : Semi-Rigid 0.085 inch
- Cable Length : 50 Cm
