

High Reliability Cable Assemblies

High Reliability Cable Assemblies –Straight Type

GigaLane **High Reliability Cable Assemblies** has good phase stability and are useful for mass production testing such as commercial and Military RF and Microwave communications systems. It has good return loss **up to 6 GHz**.

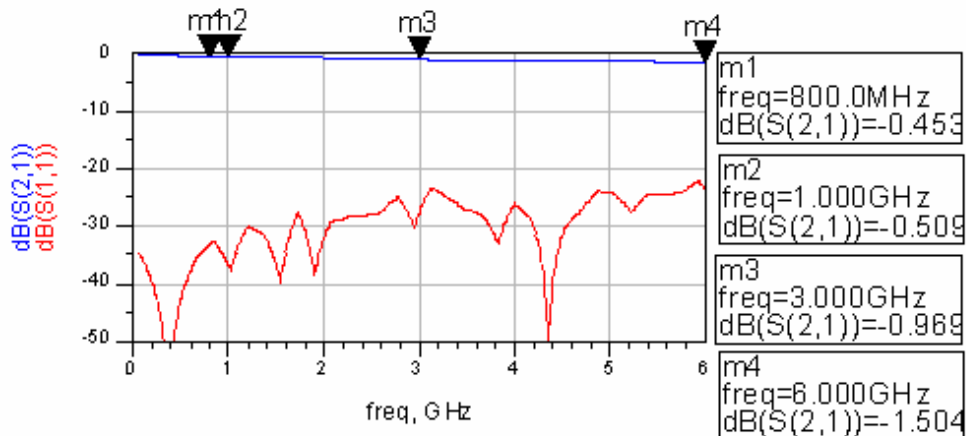

Features

- Good Phase Stability to 6 GHz
- Cable Type : RG400
- Quick and easy assembly

Test Result

Model No. SMS-RG400-SMS-1M

(Cable Length : 1 meter)
